Brief note on Activity: It is a national integration camp where cadres from two or more directorates take part. It focuses on the cultural exchange between different regions of the country and aims to promote mutual harmony and respect for each other's cultures. National Integration remains a crucial issue in India, notwithstanding the fact that we boast of a civilization, which is nearly 5000 years old. True, some of the divisive factors may be inherent in the history, geography and culture of our country, but there are also forces, which accentuate these factors. Religious fundamentalism is one such force while linguistic diversities constitute another. There are people in this country who hold an exclusive view of religion, which drives them into a sectarian frenzy that does not admit of tolerance of other faiths.

Brief note on Activity: National Handloom Day is celebrated on August 7 every year to remember the launch of the Swadeshi Movement in 1905. The movement strongly encouraged indigenous industries and the spirit of Swadeshi, which included handloom weavers as well. In 2015, the Government of India designated the day as National Handloom Day. Speaking on the occasion, Hon'ble PM had underlined, **“Handlooms can be a tool to fight poverty, just as the Swadeshi movement was a tool in the struggle for freedom.”**The textile industry is one of the largest sources of employment generation in the country, with over 45 Mn people employed directly, including a large number of women and the rural population.

Brief note on Activity: Teachers Day Celebrated Every year on September 5th in our College

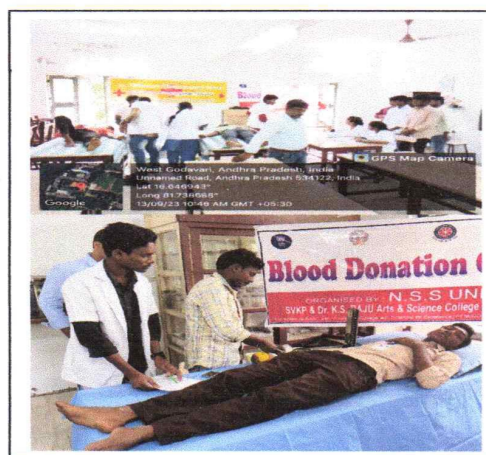

In India, Teacher's Day is observed on 5th September as a mark of tribute to the contribution of the teachers to society and the nation. Teacher's Day marks the birth anniversary of Dr Sarvepalli Radhakrishnan, who was the former President, a philosopher, scholar, and recipient of Bharat Ratna. It is on the 5th September teacher's day that students honour and pay tribute to their teachers by sending greetings, messages, and gifts to them. Brief note on Activity: World AIDS Day, designated on 1 December every year since 1988, is an international day dedicated to raising awareness of the AIDS pandemic caused by the spread of HIV infection and mourning those who've died of the disease. The acquired immunodeficiency syndrome (AIDS) is a life-threatening condition caused by the human immunodeficiency virus (HIV). The HIV virus attacks the immune system of the patient and reduces its resistance to other diseases. Government and health officials, non-governmental organizations, and individuals around the world observe the day, often with education on AIDS prevention and control.

Brief note on Activity: Soil Transmitted Helminths (STH) are a significant public health concern for India. Around 22 crore Indian children aged 1-14 are estimated to be at risk of worm infections. Worms in children interfere with nutrient uptake, and can contribute to anaemia, malnourishment, and impaired mental and physical development. To combat this issue, in 2015 the Government of India launched the fixed-day anganwadi and school-based National Deworming Day to deworm all children aged 1-19 years. The National Deworming Day is conducted in all states/UTs on February 10 every year, with a mop-up day on February 15. In this connection NSS Unit distributed Deworming Tablets for 210 students in association with CHC penugonda.

Brief note on Activity: Organized Blood Donation Programme in Collaboration with Government Blood Bank Eluru. A **blood donation:** Occurs when a person voluntarily has blood drawn and used for transfusions and made into biopharmaceutical medications by a process called fractionation (separation of whole blood components). Donation may be of whole blood, or of specific components directly (apheresis). Blood banks often participate in the collection process as well as the procedures that follow it. Today in the developed world, most blood donors are unpaid volunteers who donate blood for a community supply. In some countries, established supplies are limited and donors usually give blood when family or friends need a transfusion (directed donation)
